A synopsis on the various markets in which the Group operates are as follow:

Trinidad and Tobago

In Trinidad and Tobago, the KFC, Pizza Hut and T.G.I. Friday's restaurants performed extremely well in Q308, despite extensive food cost inflation. Additionally, the Company has experienced improvements with its labour challenges through focused training and incentive programmes. However, the Company continues to be challenged by absenteeism and staffing levels.

Dominican Republic

The KFC and T.G.I. Friday's restaurants in the Dominican Republic have endured the brunt of energy and food cost inflation in a declining economy and profitability is below Plan. However, according to the Chairman, brand awareness, service and product quality are high. Furthermore, the Company has minimal debt and it is expected that this market will continue to generate earnings for the Group.

Other Markets

The T.G.I. Friday's restaurants in Barbados and Jamaica are also experiencing significant energy and food cost inflation. Jamaica continues to produce good sales levels and management is currently securing alternative supply sources in both these markets in order to counteract the rising food costs.

Recommendation

The Chairman stated that with the Company's exit from the Puerto Rico operations earlier this year and removal of that loss from the Group, a better second

half year in 2008 is anticipated, as management refocuses on its core businesses and cost efficiency. The shares of PHL are currently trading at a price of \$3.60 on the local exchange. At our forecasted EPS of \$0.10 and the current price, PHL is trading at a very high price to earnings multiple of 36.0 times. Hence, at this time, we continue to recommend a **SELL** on this share.
